風格系列

顧名思義，這一系列的設計靈感來源于隱形噴氣式飛機，它有一條平滑的曲線，上半部分看起來像飛機的主要輪廓，腿部代表輪子。

這是一個現代但非常舒適的系列。銀藤和靠墊之間的相互映襯讓這個系列適合所有當代家庭。該產品適用於任何場景，包括餐廳、酒廊和酒吧。

As the name suggests, this collection was inspired by the stealth jet plane with a smooth curve in its' upper body, which looks like the main area of the plane and the legs representing the wheels.

This collection is modern yet extremely comfortable.

The contrast between the silver rattan and the cushion makes this collection suitable for all the current family. This series of product is available in any situation including dining, lounge and bar.
