風格系列

這張餐臺底部由米字型架支撐，幾根粗厚的支架以榫卯結構交疊在一起，整個餐臺的配合沒用一顆螺絲，獨具匠心。

鋁制桌面的基礎上嵌上了柚木板，桌子更為厚實也更耐用，視覺上的粗獷又帶着精細與人性化，使用時手感也更柔滑。

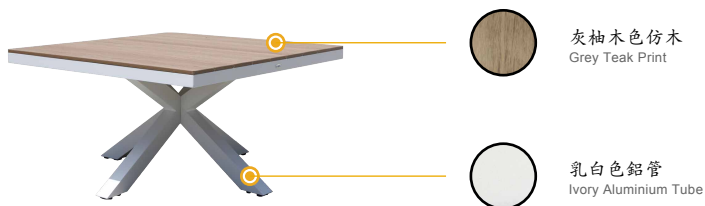

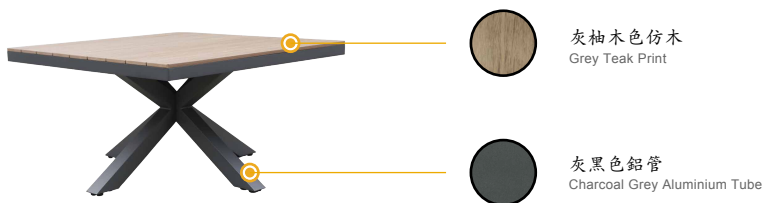

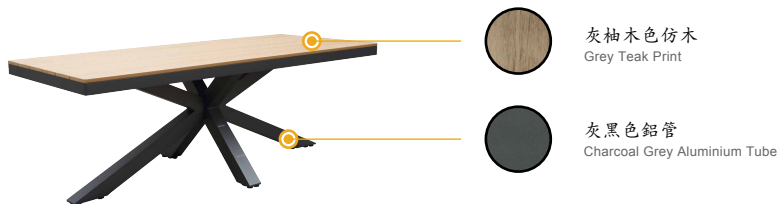

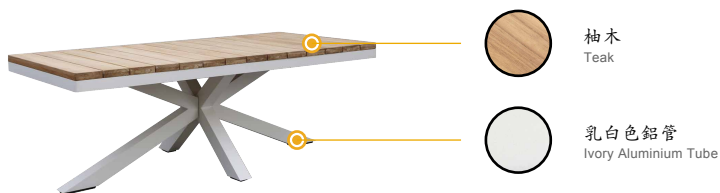

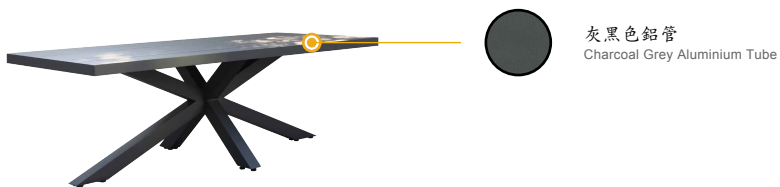

This dining table is supported by a Mi(米) shaped frame, and several thick supports are overlapped by a mortise tenon structure. The whole dining table is unique without a screw.

The aluminum tabletop is inlaid with teak board, which makes the table thicker and more durable. It looks roughness but refined and humanized, and the feeling is softer when using.
